

GEAR MOTOR

956 DC

DESCRIPTION

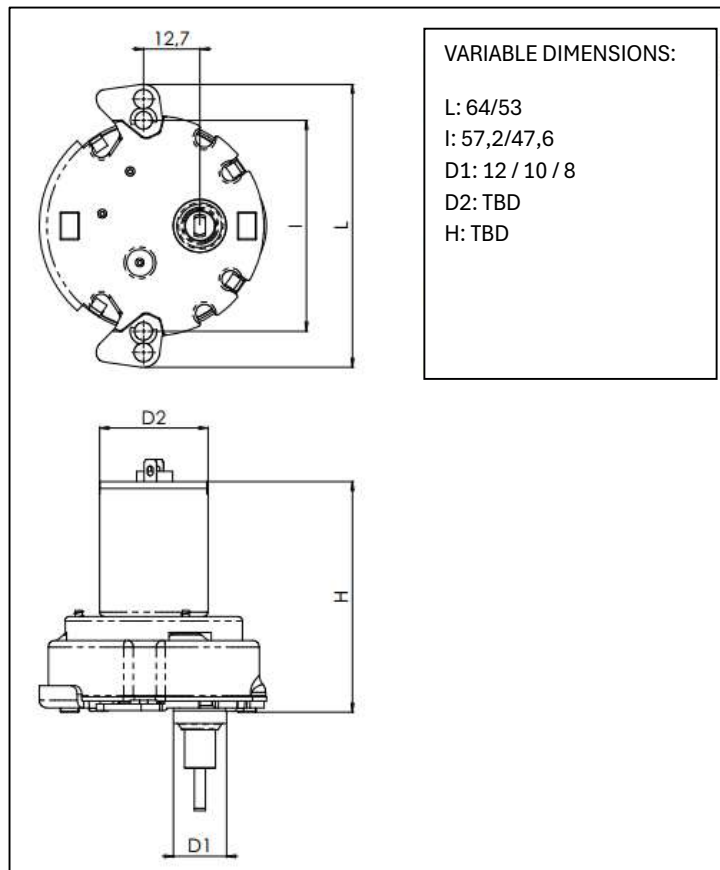

Within the extensive range of **METEOR** gear motors, **DC VERSIONS** are available which, thanks to their high reliability and a wide variety of compatible components, allow for the optimal selection customized to the specific customer need.

These motors are employed in different sectors, including the industrial field (such as peristaltic pumps) and applications in small appliances (professional and semi-professional barbecues) for diverse power ranges, as well as in professional equipment and in the automatic distribution.

PERFORMANCE

VOLTAGE	V	12 - 24
POWER INPUT	W	1,5 - 5
TORQUE	Ncm	210 - 8
SPEED	Rpm	10 - 150
MAX OPERATING TEMPERATURE	°C	60

OVERALL DIMENSIONS

ADVANTAGES

- HIGH CUSTOMIZATION CAPABILITY
- COMPACT DIMENSIONS
- MAXIMUM RELIABILITY
